

Recipient of 2003 Toyota Supplier Open House Gold Safety Award

Toyota Motor Manufacturing (TMMI) Princeton, IN

Projects Completed: \$ 36,800,000 +

Projects In Process: \$ 1,500,000

Dates: 1997 - Current

TMMI was built on 1160 acres, is 4 million sq ft. and produces the Tundra, Sequoia, and Sienna vehicles. PPMI has performed Mechanical, Electrical, and General Construction services for both new construction and maintenance in every area of the plant including Assembly, Paint, Plastics, Body Weld, Stamping, and Utilities. Major projects were: Paint Circulation installation, robot and body weld equipment installations, E-Coat and Phosphate installation, and floor conveyor systems installation.

Honda North America Greensburg, IN

Projects Completed: \$ 8,100,000

Projects In Process: \$ 2,200,000

Dates: 2006 - Current

The Honda plant, currently under construction, sits on 1700 acres and is more than 1 million sq. ft. The major operations of the facility include; stamping, welding, painting, plastic injection molding, sub-assembly and assembly, testing, quality assurance and shipping. PPMI has completed the Paint Shop process drain piping, Assembly Building utility piping, primary and secondary utility piping/equipment for E-Coat, Phosphate, and Sludge system, and waste water treatment piping.

Nissan North America Smyrna, TN

Projects Completed: \$ 1,000,000 +

Projects In Process: \$ 900,000

Dates: 2006 - Current

The Smyrna, TN Nissan plant, built in 1982, has undergone many expansions and renovations. Some of the recent projects completed by PPMI at this plant include: paint system piping, solvent recovery system, robot installation, HVAC installation, and CO₂ systems.

Bridgestone Firestone North American Tire La Vergne, TN

Projects Completed: \$ 1,700,000

Projects In Process: \$ 550,000

Dates: 2006 - Current

In 1983, Bridgestone established its first U.S. production base by purchasing a Firestone truck tire plant in LaVergne, TN. This plant continues to be an important manufacturing facility for truck, bus, light truck, and passenger car tires as part of Bridgestone Firestone North American Tire, LLC. PPMI's projects completed are utility piping (chilled water, gas, steam, and air), robot installation, 500-ton chiller installation, conveyor and extruder installations.
